

## 2007–2018 JEEP® JK H.E.M.I. HOOD

Smittybilt's newest edition to its Heat Management Series of vented hoods provides 4 additional inches of engine clearance for many types of engine swaps. The hood is supplied with a premier black finish e-coat, so it's ready for paint without any further preparation.

### FEATURES:

- Heat-extracting modified inlet
- 4" additional clearance for V8 conversions
- Aggressive styling
- Significantly improves cooling and heat dissipation
- Side vents pop out for personal customization
- Gives your JK an aggressive look
- Thick underbody insulation mat
- Accepts factory hardware—Hood nozzles included
- 0.2mm black finish e-coat ready for paint
- OE hood latch/hood mount fitment
