JL Tire Relocation Bracket

With the stylish 2018 Jeep JL hitting the roads, Smittybilt's NEW JL Tire Relocation Bracket allows drivers to outfit their new rigs with a spare tire up to 37-inches.

- A** Direct bolt-on, no drilling required, using OE attachment points
- B** Repositions spare tire up to 1.5" out and 1.5" upwards
- C** OE rubber isolator retained for reduced vibration
- D** Fits up to 37" spare tire with reinforcement bracket
- E** Fits up to 35" spare tire
- F** No wire extension needed for up to 35" spare tire
- G** Retains OE brake light and camera functions without modification
- H** 3/16" laser cut steel
- I** Weighs 11 lbs.

NOTE: Swing gate reinforcement is recommended for 35" tires and required for 37" tires
