The thin sheetmetal of the 07+ JK Wrangler and Wrangler Unlimited often leave something to be desired on the trail. Smittybilt has come to the rescue with their complete line of XRC skins and fenders. The XRC Body Armor Skins are now available for the front fender panel section and on the rear quarter panels of the JK. The skins conform perfectly to the OE body panels and provide maximum impact and abrasion protection with 1/8-inch cold rolled steel construction. The rear quarter panels also include integrated protection for vulnerable stock tail lights.
