TAILGATE with TIRE CARRIER

The new Smittybilt XRC Tailgate with tire carrier uses an OE bolt configuration, cast steel hinge points and a hardened steel pin to eliminate tailgate sag forever!

Manufactured from 14-gauge steel with a durable light texture finish, this product bolts on with no drilling or cutting required. The XRC Tailgate features integrated tie down points, roof access steps, a bottle opener and can be installed with Smittybilt or factory bumpers. Designed and engineered in California.

- A** Heavy-duty construction to support up to 37" tires
- B** Pre-drilled holes for factory handles and latch transfer
- C** Rigged cast steel hinge points and 1" hardened pin eliminate tailgate sag
- D** Step and built-in bottle opener
- E** Includes third brake light
- F** Direct bolt-on installation
- G** Can be used with XRC Tire Carrier or Slant Tire Carrier Adapter (76857 and 76857-05)

Please Note: Combination of XRC Tailgate and Slant Adapter will not work with Smittybilt Slant Hard Top 518703/517703
